COVID-19 PROTOCOL AT HEALING MOTION PHYSICAL THERAPY

We have adopted policies and procedures to ensure the safety of our patients and staff.

PERSONAL PROTECTION & HYGIENE

All patients and staff will follow this procedure upon arrival to HMPT. Your PT will not see you until you have completed these steps:

- Shoe removal upon entering the clinic.
- Enter wearing mask, and wear mask at all times inside the clinic. A mask will be provided if you do not have sufficient protection. Therapists and staff will be wearing masks.
- Wash hands for at least 20 seconds.
- Patients to bring any necessary water and/or a change of clothing.

CLEANING & DISINFECTING

- We have increased our cleaning frequency to take extra precautions.
- We will have a five-minute interval between patients to allow for sufficient sterilization of all potentially contaminated surfaces.
- All equipment will be wiped down after every use.
